FROM

Director of Food Supplies

TO

CHARLES E. MORONHA, ESQ., L.A.,
Secretary to Government, Development
Department (Food Supplies), Bangalore.

SIR,

Subject: Repairs and overhaul to Lorries of the Department.

H.

Adverting to Government Order No: SD. 8056-58/A.25-45-5 dated 7/9th May 1946 sanctioning general powers to the Transport Officer, Motor Vehicles, Bangalore, for purchasing spare parts etc. required for the Lorries of the department, I have the honour to state that delegation of powers to the undersigned to get Lorries of the Department repaired (both major repairs and minor repairs) as and when found necessary, to approve the estimates of the firms, after getting them scrutinised by the Transport Officer, to purchase timber etc. required for building bodies to Lorries and to pay all such bills from the F.D. account of the Director of Food Supplies, is very necessary in the interests of Government work.

2. When a Lorry is sent to the workshops for estimate of repairs, they give a superficial estimate at first and that for labour only, the convention being that only such of the estimated items as are actually undertaken during repairs would be charged for. Sometimes, the final charges will exceed the estimated cost and sometimes they will be less than the estimated cost. New parts replaced during the process of repairs will be charged extra at controlled rates and even the extra charges on that account are subject to the same conditions. With the result that until the repairs to a Lorry are completed, the actual expenditure incurred on repairs

P.T.O.

repairs cannot be furnished. If therefore sanction of Government is insisted upon for getting Lorries repaired, there is bound to be considerable delay since Government will have to be appraised of the costs at each stage and work will consequently suffer. The demand for Lorries from the districts is very keen in view of the difficult supply position and there is therefore an urgent need to have all the Lorries of the department in proper repairs. Nearly 75 out of the 128 Lorries now under direct departmental management, were bought during 1944 and they have done considerable mileages. Most of them will come in for complete overhaul and major repairs in the very near future. Again, unlike private owned Lorries, the vehicles of the department will have to work continously for most of the days in the month and in many places over bad roads, with the result that they come in for overhaul and major repairs at shorter intervals than other Lorries would. I therefore consider that the sanction of the general powers sought for is very essential in the interests of transportation of foodstuffs in the State and I request that the same may kindly be obtained and communicated early.

3. Recently, about 6 Lorries were got overhauled at local private workshops in view of urgency and the bills of the firms are pending payment. The firms are in the meantime urging for immediate payment.

4. In the circumstances, I request you to kindly obtain immediate sanction of Government to my proposal and to communicate the same at an early date.

I have the honour to be,
Sir,
Your most obedient servant,

8/6/46

DIRECTOR OF FOOD SUPPLIES.
